

Modular Combo Beacon Series T and U from Auer Signal

VERSATILE SOLUTIONS FROM AUER SIGNAL

**Five Types of
Illumination**

**Interchangeable
Components**

**Simple Twist &
Release Modules**

**Heavy Duty
Construction**

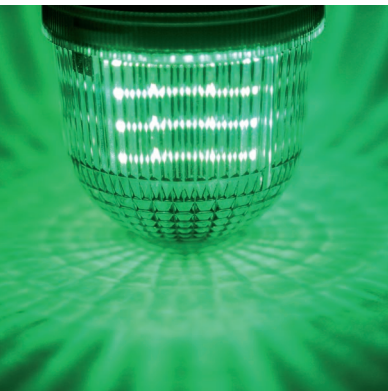

Modular Beacon Series “T” and “U” with Sounder combinations

Features:

- “T” Series available in 75mm
- “U” Series available in 60mm
- Horizontal, Vertical, Pole or Panel mounting options
- Beacons, Sounder, or Beacon + Sounder combinations
- Impact resistant and high quality housing designed to withstand harsh environments

Sprecher + Schuh is the exclusive Authorized Distributor for Auer Signaling Products in North America.

The Series T and U Beacons from Auer Signaling are a versatile line of modular beacons, sounders and mounting hardware designed for use in indoor or outdoor environments. The flexible design of these 75mm or 60mm diameter beacons creates a wide range of assembly options with four horizontal,

two vertical, and two pole mounting options. Direct panel mounting is also available using a standard 37mm hole. Easy twist assembly, high impact housing, and a choice of illumination types make the Series T & U beacons a future-proof investment!

Beacons

Series "T" 75mm ø & Series "U" 60mm ø

Steady Beacon incandescent

- Replaceable bulb up to 240 V AC/DC (not included)

Integrated LED Steady or Flashing

- Two options in one unit.
- Wiring in terminals determines setting
- Steady (La-N-Lb) or Flashing (La-N)

Integrated LED Multi Strobe

- Two options in one unit
- Wiring in terminals determines setting
- Six times fast strobe (La-N) or multi-strobe (La-N-Lb)

Sounder Series "T" 75mm ø

Add to a Series T beacon to create a visual plus audible signaling device on any mounting option!

Piezo Buzzer module

- Continuous or pulsing tone
- 88-100dB at 1m
- Adjustable volume
- Tone selection via DIP switch

TDE

TDE+
TDK

Horizontal

TMW/UMW

Internal holes for clean panel mount

TMF/UMF

External holes for easy mounting anywhere

TNL/UNL

Lateral cable entry for side entry instead of from the bottom

TMV/UMV

Useful for mounting to side of machines or walls

TVS/UVS

For mounting Horizontal options on a vertical surface

Pole Mounting

TNW/UNW

1/2" NPT for mounting to any pole

TMR/UMR

Aluminum tube with plastic foot, available in 100 or 200 mm

Mounting Options

Vertical

Flexible Assembly as easy as...

- 1** Choose a beacon - Steady, Steady/Flashing LED or Strobe
- 2** Add a buzzer if desired (on 75mm beacon modules only)
- 3** Choose a mounting option!

Beacons T or U

Panel Mount Beacons

Series "T" 75mm ø & Series "U" 60mm ø

Same flexible lighting options for mounting in a 37mm ø panel hole

Steady Beacon incandescent

- Replaceable bulb up to 240 V AC/DC (not included)

Integrated LED Steady or Flashing

- Two options in one unit.
- Wiring in terminals determines setting
- Steady (La-N-Lb) or Flashing (La-N)

Integrated LED Multi Strobe

- Two options in one unit
- Wiring in terminals determines setting
- Six times fast strobe (La-N) or multi-strobe (La-N-Lb)

Modern Features for a long life

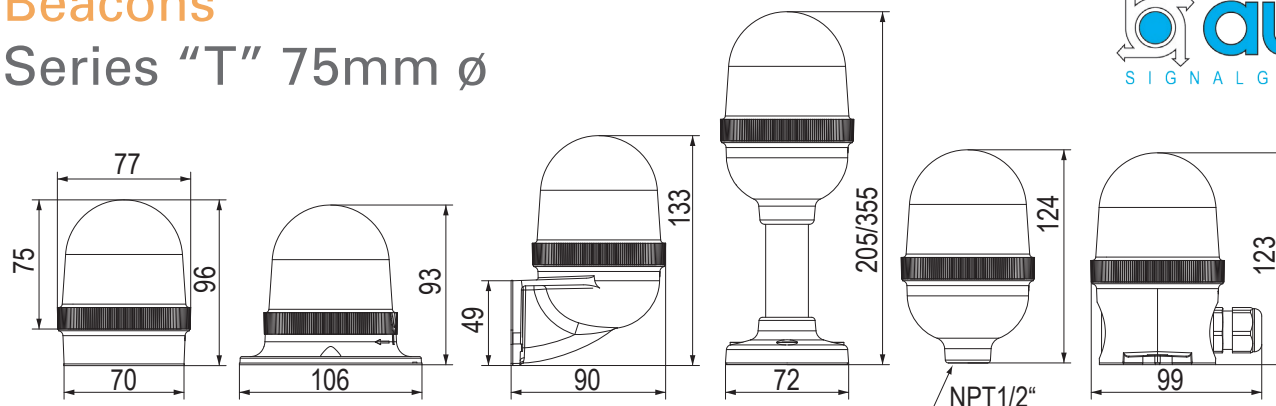

Suitable for a wide variety of visual and audible signaling needs

- Indoor and outdoor use
- IP66 and impact resistant up to IK08
- Flexible lighting options
- Suitable for harsh environments
- Lenses made of high-resistant polycarbonate
- Door, gate and barrier systems
- Transport systems
- Special utility vehicles
- Cranes
- Electrical control panels
- UL approvals
- Type 4/4X/13
- CE Marked
- Fit for PLC applications (leakage, inrush current)
