

PC7 Warning Tower Series

Warning Tower Lights

The PC7 product line of warning towers from Auer Signal offers unmatched signaling brightness, versatility and quality. A simplified mounting system offers limited inventory but flexible connections. The wide variety of mounting options fits most any industrial application, including vertical, horizontal, a variety of pole lengths, and the Auer Signal Quick Mount system. The Perfect Module 70 offers the tallest tower, up to 7 lights, including a sound module that can be placed anywhere in the tower. The PC7 light modules also offer eight colors and a multi-color beacon. Sprecher + Schuh is proud to be the exclusive distributor of Auer Signal branded products in the US and Canada.

Features

- Modules up to 6 times brighter than other modules for many lighting challenges, even full sun outdoors
- Up to 7 lighting or sound modules in one tower offers a wider variety of signaling and sound options in one unit
- Integrated LED modules with many options, including Steady, Flashing, Strobe, Multi-Strobe, and Rotating in a 90 or 180 rpm outputs in Red, Amber, Clear, Blue, Green, Yellow, new Magenta, and a Multi-Color module
- Rounded top module option for an appealing aesthetic finish to any tower
- Sound anywhere in the tower, not just at the top, including multi-tone and a new MP3 Voice module
- M12 Plug and Play Connection is a patented, cost-effective base allowing easy connection to bus and digital networks

Auer Signal

Universally usable tower lights for light and audible signals

180° Vertical Beam Angle
This increases the signaling effect and ensures that the tower is clearly visible at different heights.

Sounder Modules

Superior acoustic performance to other signal towers. Multi-tone module, its multi-tone alarm sounder module and its innovative MP3/voice output module.

Top mounting

Inline mounting

The Transformer

Upper base parts for operation with on 24V and 110-240V AC. Keeps parts to a minimum.

24V for up to 7 modules

120-240V up to 3 modules

120-240V up to 7 modules

Mounting Base

PC7 offers all common mounting types, which will already be familiar from other Auer Signal towers. In addition, there is now also an M12 connector base.

Footer adapter quick mounting system on aluminum tube.

Aluminum tube base with plastic footer

Base for vertical mounting

Horizontal mounting, with pre-mounted fixing screws

NPT 1/2" thread, Internal mounting holes

M12 connector in 5 and 8 pin sizes

PC7 LED modules offer 7 Colors

not only a higher level of brightness, but also completely new functions, such as the simulation of a rotating light and the new top module.

Accessories

TM Transition module for mounting PC7 modules on existing Modul-Signal 70 bases

LD Diffusor foil (set of 2)

XSS Set for vertical mounting Metal bracket, cable gland for vertical mounting

XWR Bracket for vertical mounting of TMR/UMR tube base
