

Simple Solutions for your Control Applications

Carwash

Sprecher + Schuh gives the Car Wash Manufacturing Community a wide array of control components for many of the varied applications that exist. Whether the Car Wash is semi or fully automated, Sprecher + Schuh controls can be incorporated into the traditional tunnel or conveyor type, the in-bay stand-alone version and soft brush type, or the touch free system. We have years of experience supporting all these popular car washing variations, and more.

We've had success working with leaders in the industry, applying various controls for chemical and water treatment, and pumping stations; high pressure spraying systems; conveyors and tracking controls of many types; switchgear and power protection; and of course, heaters, blowers, and fans at the end of the line.

Who We Are

At Sprecher + Schuh, helping our customers succeed is what we do best — with industrial control and informative solutions designed to give our customers a competitive advantage. From stand-alone, motor control components to wide integrated systems, our solutions have proven themselves across a wide range of industries and in some of the most demanding manufacturing environments.

What We Do

At Sprecher + Schuh, we continue a long-standing tradition of solving problems, achieving goals for our customers and creating new values with innovative, technical solutions.

We consistently work on improving our products and processes, maintaining industry standard certifications (national and international) in order to best serve you in all areas of your business. Sprecher + Schuh's elite panel shop is UL508A and cULus Approved, as well as ISO 9001 certified.

We focus on quality, safety, reliability and efficiency.

Where can you use Sprecher + Schuh Control Solutions?

They're Everywhere!

- Nema 4X, IP66 Operator Interface Devices
- Pump & Motor Controls, Switchgear, & Protection
- Blower, Heater, and Dryer Controls
- IP67 Audible & Visual Signaling Devices
- Conveyor, Tracking, and Speed Control
- Lighting Controls
- UL508 Custom Panel Capabilities

Types of Carwashes

Automatic

- Belt Drive and Conveyor (Tunnel)
- In Bay (Touchless or Friction)
- Drive Thru (Touchless or Friction)

Manual

- Self Service
- Full-Service Drive-Thru

Operator Controls

D7 Pilot Devices

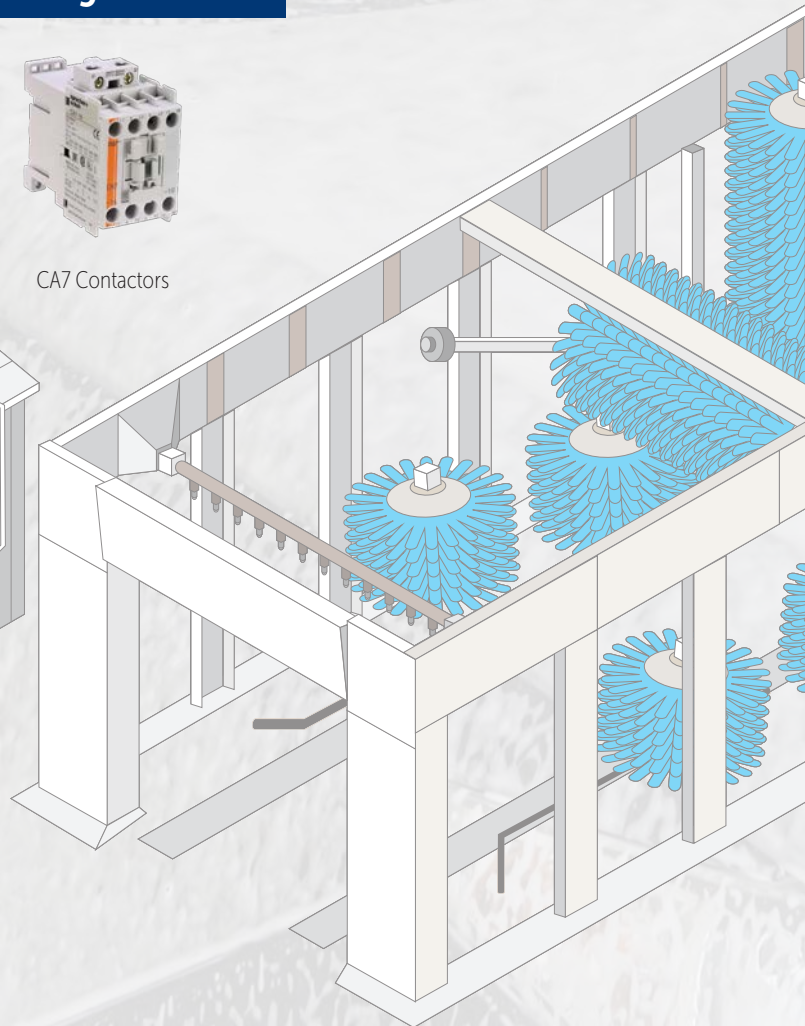

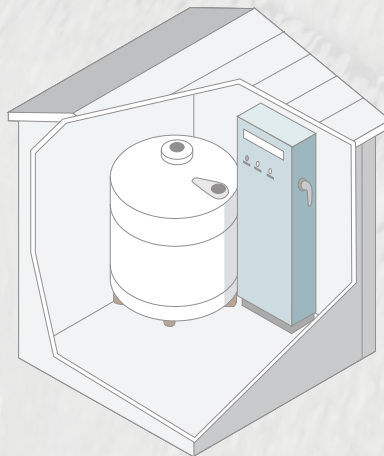

D7D Monolithic

Heating Elements

CA7 Contactors

Pumps

PFB Softstarters

L7 Disconnects

L11 Disconnects

The PFB Softstarters are an enclosed Pump Control Circuit Breaker Combination Softstarters specifically designed for smooth starting and stopping of centrifugal pumping systems and can eliminate the damaging pressure surges known as "water hammer".

Position Signals

L9 Circuit Protection

Auer M22 Panel Mount

Auer Tower Lights

Auer Signal devices are rated dust and water tight, including resistance to water jets and temporary submersion up to one meter. (IP65/IP66/IP67)

Blowers & Fans

L9 Circuit Protection

L11 Disconnects

KTU9 MCCB

Infinitum Motor

Conveyor Controls

PCS Softstarters

Infinitum Motor

L9 Circuit Protection

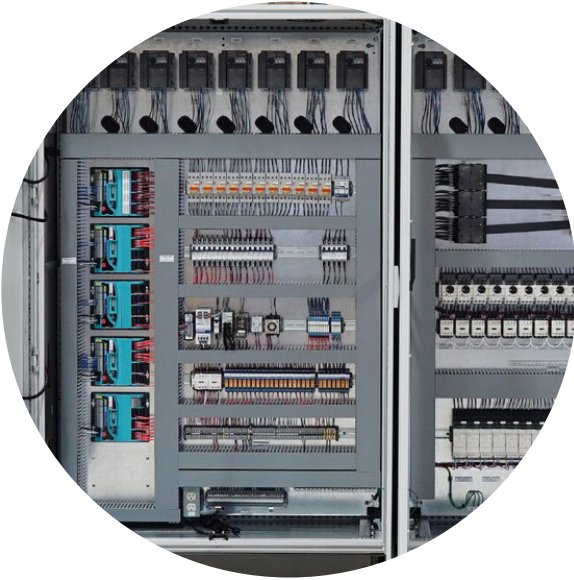

L11 Disconnects

The Infinitum motor line is especially useful for fans and blowers. It is compact, and weighs less than traditional AC motors. The HD units are IP65, and available up to 15 HP at 460V AC in a variety of RPMs. AND, the integrated variable frequency drive is one less component for you to source.

Why Choose Sprecher + Schuh

Sprecher + Schuh can integrate components into any existing control scheme and assist in the creation of new designs. We pride ourselves in applying our offering with a variety of different manufacturers, temperature and pressure sensors, other types of mechanical or non-contact switching; valves, actuators, and pneumatic controls; and finally, with many types of safety devices and systems.

There When You Need Us

Our UL 508 Panel Shop in Houston Texas gives you a distinct advantage over other "parts suppliers". We can work closely with the OEM to meet all the unique requirements and needs in this competitive market.

Whether you need components for your own panel manufacturing or a complete control panel system, Sprecher + Schuh will be there for you.
