

Simple Solutions for your Control Applications

Oil & Gas

Sprecher + Schuh gives the Oil & Gas Community a wide array of control components for many of the varied applications that exist. We supply motor control products for all the oil and gas marketplace, from the oil rigs on land or an offshore platform, from the rig site to the refining process and from that point to the consumer, be it fuel for a vehicle to other petroleum products in use every day. We also serve the petrochemical industry, liquefied natural gas industries, and wastewater treatment. We have years of experience supporting all these popular oil & gas applications, and more.

We've had success working with leaders in the industry, applying various controls for mud pumps, water pumps, Shale Shaker systems, control systems to control speed for production levels, Centrifugal Pumps, Vertical Pumps, Degasser Systems, Combination and non-combination starters for offshore platform, enclosed control products for life boat deployment, and product for adding additives to gasoline for each distributor owned custom blends.

Who We Are

At Sprecher + Schuh, helping our customers succeed is what we do best — with industrial control and informative solutions designed to give our customers a competitive advantage. From stand-alone, motor control components to wide integrated systems, our solutions have proven themselves across a wide range of industries and in some of the most demanding manufacturing environments.

What We Do

At Sprecher + Schuh, we continue a long-standing tradition of solving problems, achieving goals for our customers and creating new values with innovative, technical solutions.

We consistently work on improving our products and processes, maintaining industry standard certifications (national and international) in order to best serve you in all areas of your business. Sprecher + Schuh's elite panel shop is UL508A and cULus Approved, as well as Atex and ISO 9001 certified.

We focus on quality, safety, reliability and efficiency.

Where can you use Sprecher + Schuh Control Solutions?

UL1203 (NNNY)
Certified Panel Shop
Including ATEX Solutions

Why Choose Sprecher + Schuh

Sprecher + Schuh can integrate components into any existing control scheme and assist in the creation of new designs. We pride ourselves in applying our offering with a variety of different manufacturers, temperature and pressure sensors, other types of mechanical or non-contact switching; valves, actuators, and pneumatic controls; and finally, with many types of safety devices and systems.

There When You Need Us

Our UL 508 Panel Shop in Houston Texas gives you a distinct advantage over other "parts suppliers". We can work closely with the OEM to meet all the unique requirements and needs in this competitive market.

Whether you need components for your own panel manufacturing or a complete control panel system, Sprecher + Schuh will be there for you.
