Key Features

One-hand Operation – single motion allows user to open the door

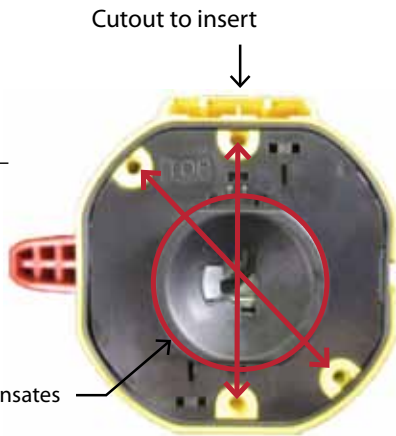

Padlocking – modified design simplifies padlocking even while using personal protective equipment

Defeater – accessible location allows quick release of the internal shaft from the handle

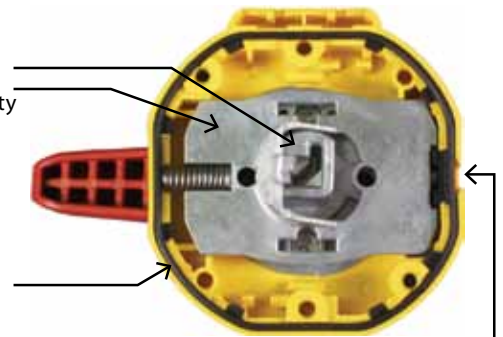

Installation

- Backward compatible – mounts using existing hole pattern
- Additional vertical hole pattern – eases layout
- Larger receiver compensates for misalignment

Inside the handle

- The mechanism is cast metal for greater durability
- The seal is integral to the handle and no additional loose O-rings
- UL type 3R, 3, 12, 4, 4X environmental ratings

Depress to engage defeater

Sprecher + Schuh has provided reliable control and protection solutions for its customers since 1903.

Today, Sprecher + Schuh offers a wide range of low-voltage industrial control products, including contactors, a variety of relays, starters, push buttons, switches, terminals and controllers, to name a few. All of our products are crafted with precision and tested rigorously for performance — far exceeding industry standards. Moving forward, we continue along the path of constantly seeking innovative ways to provide solutions for our customers. It is by this philosophy that Sprecher + Schuh has come to be the industrial control manufacturer of choice for many customers around the globe seeking quality, reliability, and a name they can trust.
