All Contactor and Starter Configurations

A.C. Coil Codes & Voltage Ranges 👀 D.C. Coil Codes & Voltage Ranges 👀

All catalog numbers, list prices and enclosure dimensions in the previous section reflect contactors with AC coils. If necessary, add the appropriate price adder to the list price for each coil required as shown in the online catalog. Remember that reversing applications require two coils. Price Adder x 2.

A.C. Coil Codes	CA7-9 thru CA7-97 CAN7-1285						
(Replace "*" in cat.# with coil code)	50 Hz	60 Hz					
24							
24Z Ø	24V	24V					
110	~	~					
120 🗭	110V	120V

240W	~	~					
277	240V	277V					
380	380-400V	440V					
440W	~	~					
460W	~	~					
480 🗭	440V	480V					
575	~	~					
600 🗭	550V	600V					
Price Adder	~	~					

For starters with DC coils, select Coil Code from the table below. Remember that reversing applications require two coils (Price Adder x 2). Starter catalog numbers must be modified when using DC coils. For example: For CAT7-9...55 contactors, add an "E" to catalog number for Electronic DC Coils. i.e.: CAT7-9... becomes CAT7-9E... For CAT7-60...97 contactors, add a "D" to catalog number. i.e.: CAT7-60... becomes CAT7-60D...

- Only the most common coils are shown here. Other coil voltages may be available. Refer to Contactor Renewal Parts in Section A of this catalog, or contact your nearest Sprecher + Schuh sales office.
- Wide range coil.
- "-EI" designates contactor coil with PLC input. Selections CA9-116...370 with "EI" requires use of control logic on terminals 1, 2, 3. CA9-400 contactors and larger include an integral switch to select use of "EI".
- 4 "DD" coils are standard for CA7-60D...97D.
- Reversing applications require two coils. Add appropriate price adder(s) to list price of enclosed contactors and starters. Remember to add price for each coil required.
- **©** CA7-9E...55E electronic coils are not interchangeable with non-electronic DC or AC coils.
- This coil range is 24-60V DC only.
